-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 6, 12, and 24 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 6, "said valve covers" lack antecedent basis.

In claim 12, the first line of paragraph (f), --or-- should apparently be inserted between "one" and "more". Also, in claim 12, paragraph (g), "downers" should be replaced by --downcomers--. Lastly, line 2 of paragraph (i) of claim 12 does not make sense as currently recited.

In claim 24, lines 7-8, "said center contact tray" lacks antecedent basis.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 13, 15-17, and 19-21 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Erickson (Figs. 6 and 8).

Applicant should note that baffles (62) above return tray (61) impede liquid from jumping over the center downcomer (68).

Art Unit: 1724

5. Claims 22-24 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Kittel '989 (Fig. 1).

Applicant should note that support ring (28) attached to the column shell provides the only support shown for both the centrifugal and return trays.

Allowable Subject Matter

6. Claims 1-5, and 7-11 are allowed.

The prior art of record fails to disclose or suggest the tray spacing as specifically called for in the claims.

7. Claim 12 would be allowable for the same reason as set forth in paragraph 6 above if rewritten or amended to overcome the rejections under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

8. Claim 6 would be allowable if rewritten to overcome the rejections under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

9. Claims 14 and 18 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

10. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
